MATERIALS

(for a 6.75-inch band, not including clasp)

- 3 yards of 6 lb. FireLine
- About 150 size 11/0 seed beads
- 20 size 8/0 Color1 seed beads
- 38 size 8/0 Color2 seed beads
- 20 AVA® beads
- clasp

STEP 1: Thread your needle with about 3 yards of FireLine (or start with a length that you feel comfortable with and add more later).

AVA beads have three holes—a hole in the bottom of the “v” and a hole in each of the legs:

Nathan Buchman of Potomac Bead Company sent me some samples of their wonderful new AVA® beads: hand-pressed, 10x4mm, three-hole, angled beads shaped like a “v”! I had a lot of fun playing with them and designed this simple band that really highlights these cool beads.

You can purchase AVA® beads here:

Thank you Nathan, Allie and the Potomac Bead Company staff for this design opportunity and these fun new beads!

Leaving about a 10-inch tail for attaching the clasp, string three size 11/0 seed beads and go through the bottom leg of an AVA bead.

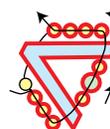

String an 11/0 seed bead, a Color1 8/0 seed bead and another 11/0 seed bead. Go through the top leg of this same AVA bead.

String four 11/0 seed beads. Go through the hole in the center peak of this same AVA bead.

String one more 11/0 seed bead. Grab your tail thread. Tie a tight double knot:

STEP 2: Go back around through the beads highlighted in **RED**:

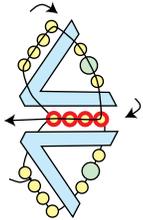

STEP 3: Go up through the hole in the center peak of a new AVA bead.

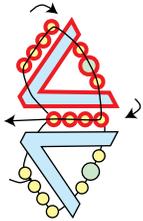

String four 11/0 seed beads. Go down through the top leg of the AVA bead that you just strung.

STEP 24: Repeat Step 12 to Step 23 until your band is the length you want it, *minus* about .75 inches and the length of your clasp. **NOTE:** You can always lengthen your band later when adding the clasp:

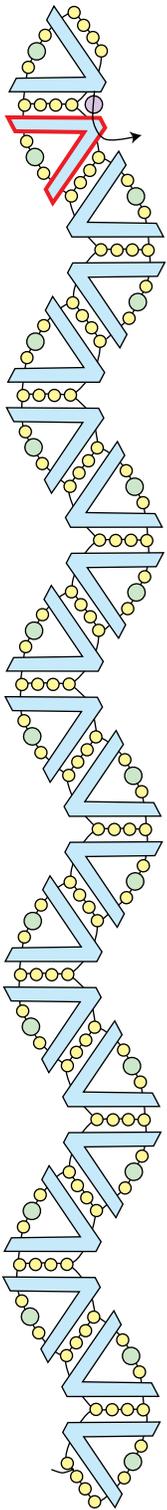

Next you will add Color2 8/0 seed beads in the gaps between the AVA beads. This will give the band some needed stability and keep it from rippling.
