Repeat Steps 9 to 25 until your bracelet is the length you want it, *minus* about a quarter-inch and the length of your clasp.

STEP 26: To attach one end of the clasp, string three seed beads.

Go through the clasp and then back through the third seed bead that you just strung:

STEP 27: String two more seed beads and go back up through the seed bead you exited at the end of Step 25 (highlighted in **RED**):

Go back around through the seed beads and the clasp several times to reinforce your attachment to the clasp.

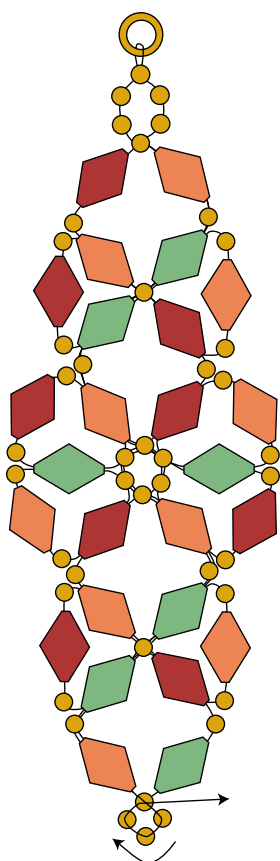

Weave your way back into the bracelet, knot in several places and then cut your thread.

To attach the clasp to the other end of the bracelet, simply thread your needle with the tail thread from Step 1, go through the seed bead next to the knot and repeat Steps 26 and 27.

Fiesta Earrings

MATERIALS

- 2 yards waxed Nymo or C-Lon, size D, or 6 lb FireLine, for each earring
- About 100 size 11/0 seeds beads
- Approximately 20 4mm orange bicone crystals
(I used topaz Swarovski crystals)
- Approximately 20 4mm red bicone crystals
(I used Indian red Swarovski crystals)
- Approximately 12 4mm green bicone crystals
(I used khaki Swarovski crystals)
- Two 3mm closed jump rings
- A pair of earring findings

To make the matching earrings, repeat Steps 1 to 25 but start with just a yard of thread and leave a 6-inch tail.

Next, repeat Steps 26 and 27, but instead of attaching a clasp, attach a 3mm closed jump ring.

(Note, you can attach the beaded earring directly to the earring post or wire but I find that there's a greater chance for the earring to slip off so I use a closed jump ring.)

Next, just attach the earring (via the closed jump ring) to your earring post or wire.

To finish the bottom of the earring, thread your needle with the tail thread from Step 1.

Go through the seed bead next to the knot. String 3 seed beads and go around and back through the seed bead that you just exited (see diagram at left).

Weave your way back into the earring. Knot in several places and then cut your thread.
