Arcos beads (officially called Arcos® Par Puca® by the company that created and manufactures them—French jewelry designer, Les Perles par Puca®) are crescent-shaped beads with three holes that go through the flat side of the bead. They measure 5x10mm with a thickness of about 3mm and come in many lovely colors.

For more color and bead combinations, visit the [RedPandaBeads.com Gallery of Color Suggestions:](http://www.redpandabeads.com/gallery_of_color_suggestions/)

MATERIALS

(for a 7.25-inch bracelet, not including clasp)

- 2 yards of 6 lb. FireLine
- About 200 size 11/0 seed beads
- About 18 size 3mm beads (any type size 3mm bead will work—fire-polished beads, round beads, crystals, Minos® etc.)
- 14 Arcos® Par Puca® beads (referred to as Arcos beads within the Step text)
- 7 size 6mm two-hole Czech Cabochon beads (Although the Jolie Band was designed for two-hole Czech Cabochon beads, Czech Silky and Honeycomb beads work wonderfully as well.)
- clasp

STEP 1: Thread your needle with about 2 yards of FireLine (or start with a length that you feel comfortable with and add more later).

Leaving about an 8-inch tail for attaching the clasp, string a 3mm bead, two seed beads, a 3mm bead and two seed beads.

Tie the beads in a circle with a tight double knot:

STEP 2: Go back around through the beads that you strung in the first step, grab your tail thread and tie another tight knot:

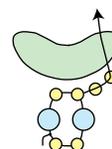

STEP 3: Go back up through the 3mm bead and the two seed beads highlighted in **RED**:

NOTE: Although Arcos beads have three holes, you'll only be using the two outside holes for this design. Just ignore the middle hole.

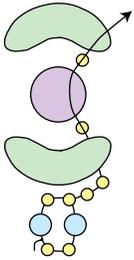

STEP 4: String two seed beads.

Go up through the right hole of an Arcos bead:

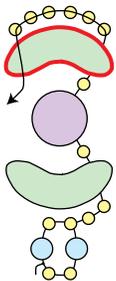

STEP 5: String a seed bead and go up through the right hole of a two-hole Cabochon bead.

String another seed bead and go up through the right hole of another Arcos bead:

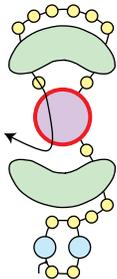

STEP 6: String six seed beads.

Go around the top of the Arcos bead that you just exited (highlighted in **RED**) and then down through the left hole of this same Arcos bead:

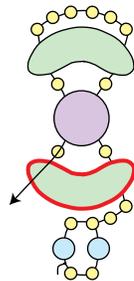

STEP 7: String a seed bead.

Go down through the left hole of the two-hole Cabochon bead highlighted in **RED**:

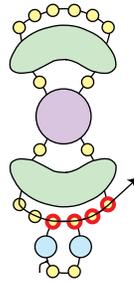

STEP 8: String a seed bead.

Go down through the left hole of the Arcos bead highlighted in **RED**:

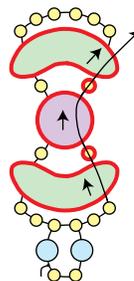

STEP 9: String two seed beads.

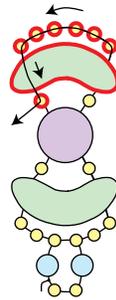

Go across through the four seed beads highlighted in **RED**:

STEP 10: Go back up through the right hole of the bottom Arcos bead, the seed bead above, the right hole of the two-hole Cabochon bead, the seed bead above and the right hole of the top Arcos bead highlighted in **RED**:

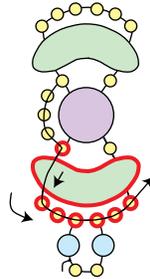

STEP 11: Go back around and down through the six seed beads, the left hole of the Arcos bead and the seed bead highlighted in **RED**:

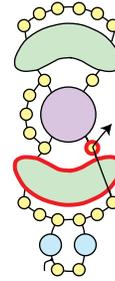

STEP 12: String three seed beads.

Go around the two-hole Cabochon bead and then down through the seed bead, the left hole of the Arcos bead and the six seed beads highlighted in **RED**:

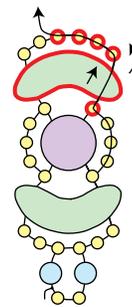

NOTE: Unfortunately, not all size 11/0 seed beads are actually the same size. If three seed beads doesn't seem like enough to wrap around the two-hole Cabochon in this step and Step 14, just add four seed beads.

STEP 13: Go up through the right hole of the Arcos bead and the seed bead highlighted in **RED**:

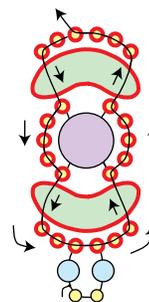

STEP 14: String three seed beads.

Go around the two-hole Cabochon bead and then up through the seed bead, the right hole of the Arcos bead and the four seed beads highlighted in **RED**:

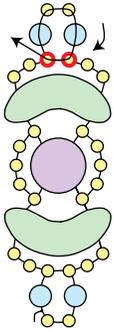

OPTIONAL: If you want to add some more strength to your band, go back around through the beads highlighted in **RED**:

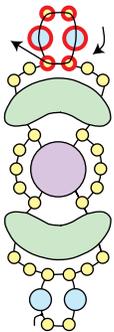

Many more **FREE** patterns on my website here: <https://www.aroundthebeadingtable.com/Tutorials/>

STEP 15: String a 3mm bead, two seed beads and a 3mm bead.

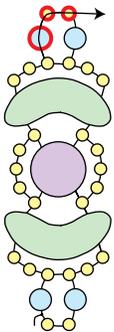

Go around and back across through the two seed beads highlighted in **RED**:

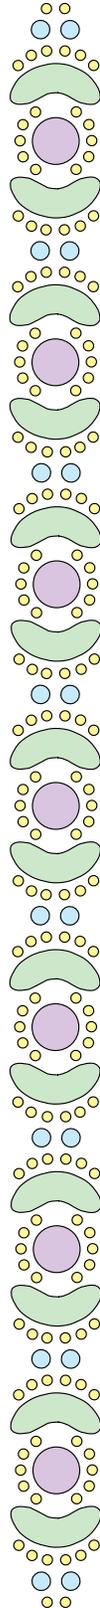

STEP 16: Go back around through the beads that you added in the last step (highlighted in **RED**):

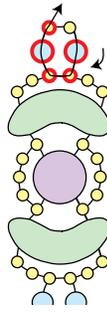

STEP 17: Go back up through the 3mm bead and the two seed beads highlighted in **RED**:

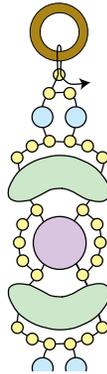

STEP 18: Repeat Step 4 to Step 17 until your bracelet is the length you want it, *minus* about a quarter-inch and the length of your clasp:

STEP 19: To add your clasp, go back around through the beads highlighted in **RED**:

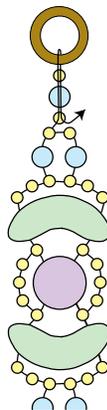

STEP 20: String a seed bead. Go through your clasp and then back down through the seed bead that you just strung:

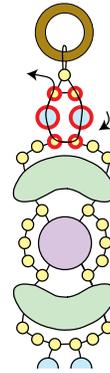

OPTIONAL: If you want to make your bracelet longer, add a seed bead, a 3mm bead and a seed bead instead of a single seed bead.

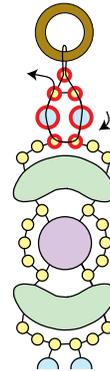

Go through your clasp and then back down through the beads that you just strung:

STEP 21: Go back around through the beads highlighted in **RED**:

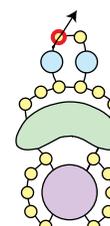

STEP 22: Go back around through the beads highlighted in **RED** and the clasp several times:

Weave back into the bracelet, knot in several places and then cut your thread.

STEP 23: To attach the clasp to the other end of your bracelet, thread your needle with the tail thread from Step 1.

Go up through the seed bead highlighted in **RED**:

Repeat Steps 20-22.
