

# Mini GemDuo Band

©2021 Deborah Roberti

*Matubo now has a “mini” version of the GemDuo bead—the Mini GemDuo, which measures 6x4mm. I have adapted my Paragon Band to work with these adorable beads.*

**STEP 1:** Thread your needle with a length that you feel comfortable working with and add more as you need it.

Leaving about an 8-inch tail for attaching the clasp, go through the bottom hole of a GemDuo bead. String a 15/0 seed bead. Go through the top hole of a Mini GemDuo bead. String another 15/0 seed bead. Go through the bottom hole of another GemDuo bead:

**NOTE:** You will not be making a knot until Step 4 so keep the tension tight and hold onto this tail thread for now. In addition, GemDuo and Mini GemDuo beads have a tapered front side and a flat back side. Make sure the front side is facing you when you add each GemDuo and Mini GemDuo bead.

## MATERIALS

**STEP 14:** String four 11/0 seed beads. Go down and across through the bottom hole of the GemDuo bead that you just exited (highlighted in **RED**). String a 15/0 seed bead. Go through the top hole of the adjacent Mini GemDuo bead (highlighted in **RED**):

**STEP 15:** Go back around through the beads highlighted in **RED** to exit from the bottom hole of the top Mini GemDuo bead:

**STEP 16:** Go around and through the top hole of the Mini GemDuo bead that you just exited (highlighted in **RED**):

**STEP 17:** Repeat Step 7 to Step 16 until your bracelet is the length you want it, *minus* about a half-inch and the length of your clasp:

*At this point, I like to grab the band at each end and give it a gentle snap in an outward direction to make sure the beads are smooth and the band is stretched as far as it will go before adding the edge beads.*

*Next you will add 4mm beads in the gaps between the 11/0 seed beads along the outer edge of the band.*

**STEP 18:** String an 11/0 seed bead, a 4mm bead and an 11/0 seed bead. Go down through the four 11/0 seed beads highlighted in **RED**:

**STEP 19:** String a 4mm bead. Go down through the 11/0 seed beads highlighted in **RED**:

**STEP 20:** String a 4mm bead. Go down through the 11/0 seed beads highlighted in **RED**:

**STEP 21:** Continue to add 4mm beads in the gaps between 11/0 seed beads all the way down the side of the band:

**STEP 22:** When you get to the end, string an 11/0 seed bead, a 4mm bead and an 11/0 seed bead. Go across through the bottom hole of the Mini GemDuo bead highlighted in **RED**:

**STEP 23:** String an 11/0 seed bead, a 4mm bead and an 11/0 seed bead. Go up through the 11/0 seed beads highlighted in **RED**:

**STEP 24:** Add 4mm beads in the gaps between 11/0 seed beads all the way up the other side of the band:

**STEP 25:** String an 11/0 seed bead, a 4mm bead and an 11/0 seed bead. Go across through the top hole of the Mini GemDuo bead highlighted in **RED**:

**STEP 26:** To attach one end of the clasp, string three 11/0 seed beads.

Go through your clasp and then back through the last 11/0 seed bead that you just strung.

String two more 11/0 seed beads and go across through the top hole of the Mini GemDuo bead that you just exited (highlighted in **RED**):

**NOTE:** To make your band longer, just add more beads (or larger beads) than directed in this step.

**STEP 27:** Go back around through the 11/0 seed beads highlighted in **RED** and the clasp several times:

Weave back into the bracelet, using the extra tail thread to go back around both outer edges of beads to add some extra strength to your band. Knot in several places and then cut your thread.

**STEP 28:** To attach the clasp to the other end of your bracelet, thread your needle with the tail thread from Step 1.

Go around through the beads highlighted in **RED** so that you are exiting from the top hole of the end Mini GemDuo bead (highlighted in **RED**):

Repeat Steps 26-27.
